Davis W. Ellis, M.D.  
Health Officer

Craig Fenimore, O.D.  
Health Board Chairperson

**FOR IMMEDIATE RELEASE:** December 21, 2009; Rush County, Indiana.

The next H1N1 clinic in Rush County will be scheduled after the first of January. At that time, the H1N1 vaccine will be available to the General Public, as well as to the priority groups, at no cost.

For parents with children under the age of 9, the second booster will be available at the next clinic. The booster can be given anytime after 28 days.

To the residents of Rush County, the City of Rushville, Rush County Council, The Rushville Republican, WIFE 94.3 radio, the Knightstown Banner, the business owners, the school employees and healthcare workers, who have shown extra care and effort during the onset of this pandemic, we thank you for your partnership.

By getting the vaccine out to the community, daily sanitizing and extra cleaning by restaurants, grocery stores, and our school employees, combined with parents who are paying attention to the signs and symptoms of H1N1, we are seeing a decline of confirmed cases of the H1N1 Flu outbreak. That means, the partnership and preparedness exercised in the last 90 days in Rush County, to keep you and your family healthy, is working!

We remain in your service and wish you a Happy and HEALTHY Holiday.
